2023 – Present

Sabaragamuwa University of Sri Lanka

Current GPA : 3.216

G.C.E. Advanced Level

2020

Ruhunu Vijayaba College, Tangalle

Physical Science Stream

PROJECTS

Solid Weddings-Photography Website (Group) [🔗](#)

09/2025 – Present

React | Node.js | Express.js | MongoDB | Jira

- Designing and implementing a full-stack platform for online bookings, package browsing, and client communication, improving customer engagement and service efficiency.
- Developing secure, password-protected client galleries for photo access and sharing, ensuring privacy and a seamless user experience.

My contribution :

project planning, timeline tracking, resource allocation, Agile workflow (Jira), and stakeholder communication to drive successful delivery.

VocalGuard - AI-Powered Audio Deepfake Detection Web Application(Group) [🔗](#)

02/2025 – 06/2025

React.js | FastAPI with Python | Firebase | PyTorch | Figma

- VocalGuard is an AI-powered audio deepfake detection system that enhances digital security by identifying manipulated voice recordings.
- Provides secure audio verification with reliable detection reports and a user-friendly interface to maintain trust.

My Contribution:

Project Planning and Scope Definition, Team Coordination, Designed and developed frontend UI/UX with React.js, Developed backend, Documentation

Sabra Music-Art Center Booking Web Application(Group) [🔗](#)

08/2025 – 09/2025

HTML | CSS | Java Script | Laravel(PHP Framework) | My SQL

- SabraMusic is a digital platform for the Art Center at Sabaragamuwa University, designed to streamline bookings, prevent double reservations, reduce manual approval delays, and maintain proper records.
- It provides a user-friendly system allowing students to request time slots, upload approvals, and view booking history, while enabling admins to manage events and track usage efficiently.

My Contribution:

Planned the project and defined scope , Led the team, Designed and developed the frontend, Developed the backend using Laravel, PHP and MySQL, Used GitHub for version control, collaboration and branching workflow, Managed documentation

HTML | CSS | JavaScript | Node.js | Express.js | MongoDB | bcrypt

- Built a full-stack web application enabling customers to browse products, create accounts, manage shopping carts and contact the business.
- The platform includes user authentication, dynamic product catalog, cart management, and contact system, delivering a seamless and interactive customer experience.
